Objective

Highly skilled and accomplished UX Design Lead with a proven track record of delivering exceptional and innovative user experiences for diverse digital products.

Bringing 15 years of expertise in leading cross-functional teams, conducting user research, and implementing cutting-edge design solutions. In addition to my technical proficiency, I bring a thorough understanding of current design trends and industry best practices to the table. I actively stay abreast of the latest design tools and technologies, empowering me to craft innovative designs that seamlessly merge visual appeal with functionality.

My commitment to continuous learning and staying at the forefront of industry advancements positions me as a dynamic UX designer. Fueled by a passion for problem-solving and an unwavering dedication to delivering outstanding user experiences, I am confident in my ability to make meaningful contributions to any UX design project. My diverse skill set, strategic vision, meticulous attention to detail, and genuine enthusiasm for user-centered design collectively establish me as an outstanding candidate for any senior position.

Experience

Evoked Technologies, India

UX Lead (Jul 2019 - Till Date)

- Defined UX blueprints and led research initiatives for multiple projects, collaborating closely with product owners, delivery managers, developers and designers to define research objectives and business goals.
- Develop and communicate new strategies (Design2Code, UX Audit, Double Diamond process) and guidelines to ensure consistent and effective design across multiple product lines.
- Make strategic and tactical UX decisions related to design and usability as well as features and functions. Also perform usability assessments and tests of interactive systems.
- For demonstrating exceptional leadership skills, consistently delivering high-quality design work and fostering a collaborative design culture within the team, recognized and promoted from Sr. UX Designer to UX Lead, overseeing a team of UX designers and researchers.
- As part of my research and client engagement responsibilities, I had the privilege to deal with the client of United States and Australia.

5Y Technologies, India

Sr. UX Designer (June 2011 - Oct 2016)

- Always balanced business goals with user needs to create a product that is both user-friendly and aligned with business objectives..
- Conducted heuristic evaluations and expert reviews to identify usability issues and suggest improvements.
- Worked with scrum teams to provide design deliverables and directions, such as task flows, and wire-frames that communicate design ideas.
- Participated in product usability testing, analyzing data, and advising product owners on priority usability issues to be addressed.
- Created guidelines for interaction design and patterns.
- Worked closely with cross-functional teams, including product managers, developers, and other designers, to ensure a cohesive and integrated product.
